## Exams for schools

Cambridge ESOL exams are increasingly being used in primary and secondary education around the world. To make them more appealing and accessible, we offer a range of exams which are specially tailored to suit the interests of pupils and young learners.

[KET for Schools](#) and [PET for Schools](#) are specially designed to suit the interests of pupils, so it increases their motivation to learn English. They are based on familiar topics and situations so they give pupils the confidence to use their English.

The first session of the new KET for Schools and PET for Schools exams will be in March.
