New TKT specialist modules

We will be introducing a new TKT module called **TKT CLIL (Content and Language Integrated Learning)**. This is a specialist module which aims to test the knowledge of concepts related to CLIL and the practice of planning, teaching and assessing curriculum subjects which are required to be taught in English. This specialist TKT module will be of interest to bilingual school teachers who are teaching school subjects through English.

The other new module will be **TKT KAL – (Knowledge about Language)**. This module will complement the existing TKT modules while extending the range and complexity of teaching knowledge tested in TKT Module 1. TKT KAL will test the knowledge of language systems that teachers of English need to plan and teach their lessons (lexis, phonology, grammar and discourse seen from the perspective of a teacher's language knowledge needs).
